\_\_\_\_\_

Draw a picture of something you can do about EAB in the box below:

This brochure was made by:

---

# All about the Emerald Ash Borer

A brochure to share  
with family and  
friends!

### Where did EAB come from?

---

---

---

### How did EAB get here?

---

---

---

### What type of trees does EAB attack?

---

---

Draw the tree's leaves in the box below:

\_\_\_\_\_ trees have compound leaves which are \_\_\_\_\_ of one another.

### What is the life cycle of EAB?

#### 1. Egg :

The adult beetle lays an egg on the \_\_\_\_\_ of the tree.

#### 2. Larva:

Eggs hatch into larva which burrow under the bark to \_\_\_\_\_. This causes \_\_\_\_\_ - shaped galleries.

#### 3. Pupae:

The larva turns into a pupae which is how they spend the \_\_\_\_\_.

#### 4. Adult:

Pupae change into adult beetles which leave the tree through \_\_\_\_\_-shaped exit holes in the \_\_\_\_\_.

### Three signs of an EAB infestation in an ash tree are:

1. \_\_\_\_\_  
\_\_\_\_\_
2. \_\_\_\_\_  
\_\_\_\_\_
3. \_\_\_\_\_  
\_\_\_\_\_

Draw one sign of EAB in the box below:

This picture is an example of \_\_\_\_\_
